

children's museum of hutchinson

NEW! Coming Soon

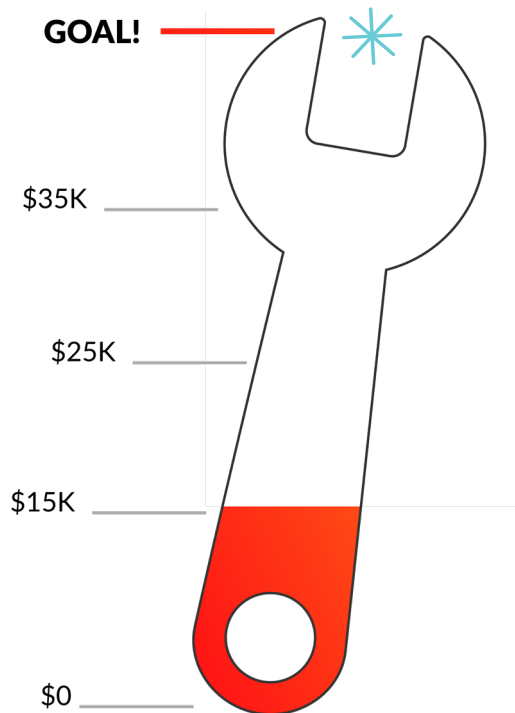

We need you!

Through a combination of community support and fundraising, private donations, & grant funding our goal is to raise \$49,000.

A Full-Service Station!

Incredible imaginative and practical learning experiences the Wheel & Cog Service Center will teach:

- Car maintenance and tire rotations are things that everyone should learn, so why not start young and foster a life-long interest and confidence in this critical life skill.
- 95-98% of the children frequenting Wheel & Cog will be drivers in 15 years or less, and boys and girls should understand where to find spark plugs and change oil. Imagine the heightened car care and driver safety we're fostering!
- Together, through this initiative, we will plant the seeds to make healthy adult choices, take personal responsibility, and promote road safety.
- With Ridgewater College's automotive program and awesome involved automotive dealerships in our community, we'll build awareness of continuing education opportunities and career paths.

Make A Donation!

To make a donation, assist with our fundraising efforts, set up a corporate match for donations, or get more information please contact Jessica Sabrowsky at director@wheelandcog.com
